

A Pie Pan Mobile

Take a walk and collect nature's treasures to hang on your mobile.

materials

- aluminum foil pan (tart or potpie size)
- raffia
- 1" (2.5 cm) square of cardboard
- treasures to hang
- paper name tag
- hole punch

Steps to follow ➤

1. Punch two holes in the cardboard square.
2. Center the cardboard square inside the pan. Mark the spots where the holes are. Have an adult poke two holes in the pie pan where the marks are.

3. Thread a 12" (30 cm) piece of raffia down through the one hole in the pan and the cardboard square and back up through the other hole.

Tie the raffia together close to the pan and then again at the end to create a hanging loop. (Using the cardboard square will prevent the aluminum foil from tearing when you hang your mobile.)

4. Punch holes at even distances around the edge of the pan.
5. Put raffia through each hole.
6. Tie treasures to the raffia pieces.
7. Punch a hole in the name tag, and thread a piece of raffia through the hole. Pass the raffia under the loop on the inside center of the pan and knot.
